

BUILDING A CONSTITUENCY  
FOR OUR FREE MARKET ECONOMY

April 18, 1980

Admiral Stansfield Turner  
Director  
Central Intelligence Agency  
Washington, D.C. 20505

Dear Admiral Turner:

It was a pleasure hearing you at the Palm Beach Round Table late yesterday afternoon and meeting you at the reception following your speaking engagement.

I was surprised by your remark that you thought General Westmoreland was advocating socialistic economic reform. I'm sure your remark was probably made in jest, whatever, I've enclosed a brochure about the Fiscal Policy Council as well as the National Dividend Plan. This latter proposal has been under extensive research review by the Council. Essentially it is a national profit sharing plan designed to encourage public support of private enterprise and a balanced federal budget. NDP proposes that all federal corporate income taxes be placed in trust each year and distributed in equal shares as a National Dividend to each citizen who is registered to vote.

As Chairman of the National Board of Advisors, General Westmoreland has talked extensively about the National Dividend Plan and related economic matters.

The Fiscal Policy Council is a strong private enterprise, pro business group supporting a free market philosophy. I hope this letter clarifies the nature and scope of our work and the type of activities we are engaged in. By the way, your eloquent speech at the Round Table was both comprehensive and enlightening. You did a great job!

Best regards,

A handwritten signature in dark ink, appearing to read "Joe Dolan".
